

TAILORED HABERDASHERY  
FOR MODERN LIVES

### A TAILOR'S PRECISION

Your measurements are drawn to 1/8 of an inch to ensure perfectly tailored garments. Every detail is considered, from neck length to shoulder width, to which hand carries your watch. The tailor's motto: *measure twice, cut once.*

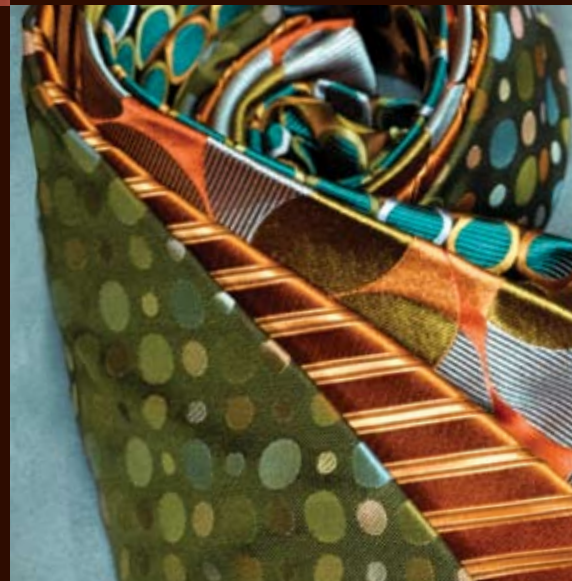

### TOP NOTCH THREADS

DROBE carries the world's finest cloth in thousands of colors and textures. In addition to traditional looks, we stock complex colors, tone-on-tones, and rare stripe and check patterns.

### YOUR PERSONAL STYLE

We start with a consultation to learn your personality and reasons for wearing bespoke garments. Next, we identify the hues, shades and patterns that best complement your shape and complexion. By the end of your short consultation, you're on the road to an advantage that matches your lifestyle and exceeds all expectations.

### DETAILS IN THE DESIGN

Consider French cuffs and a custom monogram, with your actual signature. Perhaps a split yoke leading to an inverted box pleat is best. Whether you prefer to make bold statements or understated ones, you'll succeed in unparalleled distinction.
